Board Review and CME Program

Sun Valley Inn & Conference Center

Sun Valley, Idaho

Dear PA & Nursing Friends,

The Idaho Academy of Physician Assistants CME committee invites you to attend our 2010 Sun Valley conference. As in the past, the conference will provide practical updates you can apply to your practice and patients as you enjoy Sun Valley's world class hospitality and casual elegance.

New topics this year include: Cardiology and Endocrine recertification topics as well as a session on "Tips On Taking A Review Test" to further help you with recertification testing. The CME topics of this program were selected by monitoring trends in current therapies and medical advances as well as past program evaluations.

Workshops in splinting and casting, EKG and both basic and advanced suturing are being offered this year. These workshops have a limited amount of space, so be sure to sign up early to reserve your seat.

Other exciting CME topics this year include three pharmacology presentations: The always popular "Top 20 Drugs of the Year" by Roger Hefflinger, PharmD, as well as "Psychopharmacology Update" and "Cardiovascular Pharmacology."

By attending the conference, you will gain valuable information to remain current with your medical knowledge and clinical skills, as well as updates on important health care issues. All of which enhance your ability to provide quality care to your patients.

We can always use help. If you would like to volunteer to help on this or other IAPA committees, please send an email to oneill@idmed.org. Getting involved is a great way to meet other PAs.

We look forward to seeing you in Sun Valley!

Marv Sparrell, PA-C, Chair
